## New State Levies Hit Taxpayers On Aug. 1

Income, Gasoline and  
Liquor Taxes Top List  
As Assembly Adjourns

Quad-City residents will feel the effects of new state levies on Aug. 1. The Illinois legislature passed a package of new taxes on income, gasoline and liquor, among others, during its final session.

The income tax measure, designed to produce \$765 million in additional state revenue, was passed Monday on the final day of the six-month legislative session. Gov. Ogilvie signed it Tuesday morning and it was announced withholding from individual paychecks will begin Aug. 1.

In addition to the income tax, Quad-Cityans and other Illinois residents will pay more for many other items. For example, the new tax on gasoline will increase the tax on gasoline by 1 cent a gallon to 15 cents. The tax on whiskey will be increased from 15 to 20 cents.

Tobacco Taxes Higher  
They will pay a three-cent tax boost on each package of cigarettes and on each pack of cigars and pipe tobacco, while the beer tax will increase 1 cent a gallon to 15 cents. The tax on whiskey will be increased from 15 to 20 cents.

The tax on hotel and motel bills is increased from 3 to 5 percent, and an additional 1 percent is assessed on paratourism betting. A higher tax also is assessed on race track admission.

The new tax bills have been signed by the governor and all become effective Aug. 1.

Passage of the income tax bill, which followed months of political maneuvering, was a major victory of the governor for the first-term Republican governor, although, to obtain the tax, Ogilvie was forced to...

The Nameoki township collection office went into its final day of local tax collections today, anticipating tax payments of more than \$800,000 from large scale mortgage holders who customarily make last-minute tax payments.

The Nameoki tax office in the Granite City Trust & Savings bank reported collections of \$485,371 as of yesterday.

Gene Raker, township collector, is charged with a total tax collection this year of \$1,578,881.

## Harry Grothjahn, Former GC Fire Captain, Dies

Harry C. Grothjahn, 75, of 7503 West Jackson street, Pensacola, Fla., a retired captain of the Granite City fire department, died at 2 p.m. Tuesday at the Veterans' Hospital in Gulfport, Miss. He had suffered a stroke and was confined at the hospital for 3 1/2 years, a spokesman for the family said today.

A native of Pittsburgh, Pa., Mr. Grothjahn had resided in Granite City from early childhood until about ten years ago when he moved to Florida. He joined the local fire department in August 1922 and retired as fire captain in January 1942.

Mr. Grothjahn served in the U.S. Marine Corps in World War I and was among the organizers of the American Legion's Last Man's Club, a county-wide veterans group. During World War II he served as a member of the Selective Service Board in Granite City. A past commander of Tri-City American Legion Post 113, he had also held posts as county and district commander in the organization.

Surviving are his wife, Mrs. Florence Grothjahn; one son, Capt. Harry Grothjahn Jr., stationed at Pensacola with the U.S. Navy Air Force; two grandchildren; and two nephews, Frank and Charles Johnson of Granite City.

Funeral arrangements are given in today's obituary column.

## Teachers, GC School District Far Apart

"Despite the enactment of a state income tax and a scheduled increase in the state aid formula from \$400 to \$520 a pupil, the Granite City school district and American Federation of Teachers Local 743 are far apart in their views of the district could and should pay in 1969-70.

The district sees the local as seeking a double increase, a \$600-per-person across-the-board pay boost plus a 70.38 percent slice of added state aid (or a quadrupling of the district's annual income based on experience and number of college credits).

Local 743 defends its position by noting that about 70.38 percent of past education fund spending has been for faculty pay and that the next budget will be larger than that for 1968-69.

## GC Council Preparing For Budget Struggle

Police Staff Picketing  
For Pay Negotiations  
Today with Mayor

Faced with a July deadline for adoption of a 1969-70 budget, Granite City council members are expected to swing into action during next Monday night's regular session.

Virtually nothing has been accomplished since Mayor Partney presented a tentative proposal late in May. One special council session was held in May, but several city departments had not yet compiled full data and several items were absent.

The total tax billing for Granite City township, in local taxes, amounts to a record \$9,170,570. Each of the city's 11 wards is billed for payment of \$258,726.

## Auto Looted, Stolen, Found Later by Owner

Ten cases of theft and burglary were reported in the Madison area today, including the case of a Granite City motorist whose auto was looted and later stolen.

James R. Hendrix, 2165 W. Main avenue, was victimized Tuesday as his 1965 Ford Mustang was stolen during the day and the car itself was stolen that night.

After using a screwdriver to pull up the latch on a door of the car parked on a lot at 20th street and Cleveland Blvd., the thief took the 1965 Mustang and drove it to a nearby lot where it was hidden.

The latch on the glove compartment was broken, and the cover on the console was pried open, including a flat tire. Hendrix reported that the car was missing from his home at 2 p.m. Wednesday.

Hendrix found the auto himself at 4 p.m. Wednesday on Lake drive.

Robert L. Lapardus, 2024 Elm avenue, reported at 10:55 p.m. Wednesday that a 23-inch color television set was stolen from his home after 7:30 p.m. It was valued at \$600. Entry was gained by removing a bedroom window screen.

Burglars broke into the home of Viola Ware, 429 Weaver street, and stole a color television set, according to a report received at 3:35 p.m. Tuesday. Entry was gained by breaking a window on the north side of the building.

Police said the theft occurred during the day while she and her husband were at work. A variety of Army field gear including belt clips for ammunition, a poncho, a mess kit and a first aid kit were stolen from the motel auto of Dennis DeMontrollin of the Granite City Army Depot. It was reported to Venice police at 12:50 a.m. today. The theft occurred while DeMontrollin's car was parked at American Legion Post 113 in Venice. The left window of the car was broken by gun entry.

Rose Chambers, 2228 Benton street, reported at 2:30 p.m. Wednesday that a youngster whom she had seen running toward her from a nearby alleyway, snatched her black leather purse and jumped into a white-over-

## Petitions Filed to Create Village

Chain of Rocks Village  
Sought, Area Smaller  
Than Effort Last Year

A second effort to incorporate part of the north side of Chouteau township into a village is underway as petitions were filed Monday in Madison county circuit court seeking a referendum.

A hearing date on the petition designed to create the Village of Chain of Rocks, has yet to be set by Chief Circuit Judge Joseph J. Barr.

A description of the territory proposed for incorporation shows it contains 437 acres, smaller than the 141 square mile area which was included in a referendum to form the Village of Chouteau held on Feb. 26, 1968.

The new area includes Sunny Dell Acres and Rae Gene Acres subdivisions on either side of West Chain of Rocks road and extends from Old Alton road on the east to an unnamed side of the Chain of Rocks canal bridge on the west.

It includes the area originally proposed two years ago, but which increased in size as some residents of surrounding areas showed an interest.

The boundaries in the new effort do not include the Cedar Park and Hills Terrace subdivisions or an area of 2200 West Chain of Rocks road south of the highway near Route 3, which were in the proposed boundaries last year.

The petition, filed with the office of Miss Eulalia Holtz, Madison county clerk, contained more than 50 signatures of residents in the area described.

The petition states that the area proposed as a village contains 390 inhabitants. It was signed by Francis Manning, Wood River attorney.

Spearheaded by the new move are Robert Douglas, operator of the Madison Motel; James Greer, of the G & G Lumber Co.; and Marion G. Gile, of the R. C. Cola bottling plant. They were among leaders in the unsuccessful movement last year.

A smaller area for the proposed incorporation was selected because, in the event the referendum is successful, residents surrounding the village would be annexed to it if they so desire.

Major issues last year, when leaders of the movement announced plans to incorporate the area, were the lack of a sufficient tax base, potential...

## Letters to Ogilvie Urged for Support Of Lake-Park

Area residents interested in the development of Horseshoe Lake as a state park are being asked to wire or write Gov. Richard B. Ogilvie urging him to sign the bill.

John D. Karandjeff, local banker and chairman of the Horseshoe Lake State Park Commission, said today that all support that can be mustered will be helpful.

The two bills on the Governor's desk call for establishment of a 1700-acre state park and conservation area, including the entire lake and its shoreline, and for an appropriation of \$2,000,000 to purchase the lake and land.

In making the request to Gov. Ogilvie, Karandjeff said: "We are again asking for your cooperation in writing, writing or telephoning Gov. Richard B. Ogilvie, State Capitol Building, Springfield, Ill., to sign the Horseshoe Lake House Bill No. 766 and 767.

"We are, of course, overjoyed with the wonderful support we have received from the House and Senate and the dedicated services that our legislators have rendered. It is highly imperative that the Governor sign these bills so that they may become law."

## Meany Urges AFL-CIO Support Of Local UF Drive

"The United Fund campaigns have my full official and personal support," AFL-CIO President George Meany advised local UF Community Services Director Robert McCormick.

While the local Tri-Cities Area United Fund goal for this year's campaign has not yet been announced, groundwork for the annual fund drive is being organized by Leo Kozon, local laborer and general chairman, and the co-chairman, George Becker of the United Steelworkers' district office staff.

McCormick said initial contacts also are to be made this month with local AFL-CIO unions.

"Mr. Meany shares my feelings in the need for all-out union participation in the forthcoming campaign," McCormick said.

"Here's Mr. Meany's message to all AFL-CIO members," McCormick added:

Meany's Message

"We have many reasons to be proud of the distinguished record of responsible community citizenship demonstrated for many years by our affiliated organizations and members through our AFL-CIO community services activities. A fine example of our profound concern for the community is the partnership which the AFL-CIO has forged with United Way health and welfare agencies," Meany stated.

"United Funds, Community Health and Welfare Councils and their member agencies have benefited greatly from AFL-CIO participation on their boards and committees, from our union counseling and, of course, from our generous financial support for over a quarter of a century. The effectiveness of United Way services has been enhanced, thereby, for the benefit of the entire community, including our members and our families.

"We are threatened today by new and larger problems. Crime, delinquency, drug abuse, and other human problems threaten our country. To help solve them, the United Way is now making an additional thrust for a voluntary mobilization of all community resources. To do the job, United Funds will be seeking to increase the \$70 million raised last year to over a billion dollars as soon as possible.

"I urge all AFL-CIO members, in line with their community services program, to respond to this call with the same understanding and generosity which they have so thoroughly demonstrated in the past."

## Hordeskys Recovering From Crash Injuries

Granite City residents, Mr. and Mrs. John (Ann) Hordeskys are recovering at a hospital in Springfield, Ill., from injuries sustained in an auto accident, according to a member of the family.

The local family with their 15-year-old son, David, and a relative of their daughter-in-law, eight-year-old Susie Fisher, were enroute to visit Mr. and Mrs. Dan Hordesky in Eureka, Ill., their son and daughter-in-law, and Mr. and Mrs. Malone of Chicago, their son-in-law and daughter. Their plans were to continue on to Pennsylvania to visit the elder Hordesky's mother.

Mrs. Hordesky received a broken breast bone and shattered a bone at the base of her skull, a concussion and abrasions. She was fitted for a plaster jacket on Saturday and has been told she will be required to wear such a corrective measure for about two months.

Her husband, John, sustained four broken vertebrae and has been put in a back brace. If the treatment is successful, the couple will return to their home this weekend.

The two children were in good condition as David had received a cut on the head which was treated and he was released while Susie Fisher had head injuries, but apparently not of a serious nature as she was detained overnight for observation and released.

The couple had just purchased a new station wagon for a vacation trip. It was demolished. A member of the family said Mrs. Hordesky was driving on a four-lane, divided highway and was attempting to pass a semi-trailer when the car in front of the truck stopped suddenly. The truck, in trying to avoid hitting the car, swerved into the path of Mr. Hordesky's automobile. She in turn went off the highway to avoid a collision and hitting a ditch caused the station wagon to flip over.

Mr. Hordesky is employed at Dow Chemical Co. in Madison and his wife is employed in the FADC at the Army Depot.

## GC Rotarians Hear Registration Chief for State

Carl Mathias, newly-elected president of the Granite City Rotary Club, presided at his first meeting Tuesday afternoon at the YMCA with 43 members and four guests attending.

Guests included Sister Mary Thomas, administrator of St. Elizabeth Hospital, Sister M. Bernardina, administrative resident, and Dr. John Riley, chief of staff at the hospital, and Dr. Albert Triani, local dentist.

They attended to hear William Robinson, director of Registration-Education for the state of Illinois, who was introduced by Dr. Stanley May.

Robinson's topic was "Participation," and he told the group there are 31 positions and professions requiring a state license. It is the responsibility of the office to license these professions and make sure the statute is adhered to as far as health, welfare and safety are concerned.

On his staff are full-time investigators to assist with the work of the office. Robinson stated he is hoping to have a research staff to make it possible to determine if those who are licensed are being helped by his office and if the public is being served by persons who are in fields requiring license.

## Local Chapter is Formed of Panel of American Women

A local chapter of the Panel of American Women, a nationwide organization, has been formed and will be available to present discussions in the fall to any group of 20 or more women at daytime or evening meetings.

Coordinator for the local chapter, made up of 12 women from the Quad-Cities and Alton area, is Mrs. Sylvia Cross, who lives at 402 West avenue, and may be contacted by phoning 931-3264.

"The Panel," she explained, "uses a personal approach to problems of prejudice and community relations. Each panel is made up of a Jew, a Catholic, a Negro, a white Protestant, and a moderator."

"They speak to any interested group, church, civic or social organization and they tell their own story—what it is like to be denied promotions in business because you are Jewish; what it feels like to be a Catholic facing issues of public aid to parochial schools, communal changes and social action."

"What it is like to be a Black American forced to live in a ghetto or what a White Protestant painfully aware of such injustices seeks to do."

Following this presentation, the moderator leads a discussion of comments and questions from the audience, and panelists answer simply and with specific examples from their own lives.

The purpose, Mrs. Cross explained, is to provide a means through which misunderstandings are corrected, fears and doubts are overcome and constructive steps are taken.

## Folks-Blues Pop Show at River Festival Monday

A double feature is in store for three encores. The remaining pop attractions at the Festival will spotlight the Iron Butterfly, Thursday, July 10; The Band from the Big Pink, Monday, July 14; Ian and Sylvia, Thursday, July 17; The New Christy Minstrels, Monday, July 21; Richie Havens, Tuesday, July 22; and Joan Baez, Wednesday, July 23.

Currently among the best of the young song writers, Joni Mitchell was born Roberta Joan Anderson in 1943 in McLeod, Alberta, Canada. She attended public schools in Saskatoon, Saskatchewan, and, bent on a career as a commercial artist, enrolled in the Alberta College of Art in Calgary. To pass the time, she took along to school a ukulele.

After mastering some chords and a few traditional ballads, she found she could earn extra money by singing and got her first job in a coffee house called the Depression. As time went on, she found she enjoyed singing more than painting, and made a trip to the Mariposa Folk Festival in Ontario. On the way she wrote her first song, a blues number called "Day After Day," timed to the clacking of railroad wheels.

Jon continued appearing in Detroit clubs, then went to New York where Reprise's Andy Wickham discovered and signed her. The 25-year-old blonde has written more than 60 songs. A critic said of her, "She is a beautiful woman. Her voice and her acoustic guitar are free, pure instruments in themselves; and she has an additional beauty in the way she uses them to convey such a full range of ideas—emotions."

Sharing top billing with Miss Mitchell Monday night is Arlo Guthrie, who has been singing all of his life. He combines his talent as a folk singer with a dry wit, delivered in long, intricate monologues.

Guthrie began singing professionally in February 1966 and his rise to fame began with his narration of the famed "Alice's Restaurant" at the 1967 Newport Folk Festival. The popular piece is a lengthy recitation of his experiences on the way to the draft board.

Son of the oft-eulogized folk guru, Woody Guthrie, Arlo was born in Coey Island, N. Y., on July 19, 1947. He has made public appearance throughout this country, in Canada and in Japan.

In December he played at Carnegie Hall and was called back Mrs. Frances Spengler, 52, Dies in Maine

Mrs. Frances Spengler (nee Holshouser), 52, of 3 Rambler road, Cape Elizabeth, Maine, a former Granite City resident, died at 11:45 p.m. Monday, at a hospital in Portland, Maine. She had been hospitalized since June 15 following a stroke.

Born in Granite City, Mrs. Spengler had lived here for 32 years and since that time had made her home in several areas of the country. She resided the past two years in Maine. A former member of Niederrhain United Methodist Church, Mrs. Spengler was employed as church secretary in each of the towns she had resided.

Surviving are her husband, Fred G. Spengler; a son, Richard Spengler of White Bear Lake, Minn.; one daughter, Miss Karen Spengler of Cape Elizabeth, Maine; her mother, Mrs. Cynthia Holshouser; one brother, Robert Holshouser; two sisters, Mrs. Helen Prengel and Miss Alice Holshouser, all of Granite City, and one grandchild.

## Urges Boating Safety to Avoid Holiday Tragedy

Warning of possible hazardous boating conditions at the Carlyle Reservoir during the holiday weekend was issued by Col. Edwin P. Decker, district engineer of the U. S. Army Corps of Engineers at St. Louis.

The 26,000 surface acre reservoir, located 50 miles east of Granite City, is expected to attract 100,000 visitors during the Fourth of July weekend.

Col. Decker said the reservoir has a wide expanse of open water, no high bluffs, timber or other protection, and boaters are subject to four and five-foot waves under moderate wind conditions. The users of small boats should always be aware of the probability of occupants being dumped in the water in spite of all precautions, the officer said.

He said this can happen when boat occupants are fishing, racing, working or just enjoying. The one, simple and

## Flying Disc Contests Start at 11 Centers

A profusion of colorful flying plastic discs will fill the skies above Granite City in the coming weeks as youngsters take part in the "All City Junior Flying Disc Championships," under sponsorship of the Granite City Park district.

Boys and girls between the ages of eight and 12 years who are participating in the park district's summer recreational program are eligible to compete. Preliminary contests at

the 11 playgrounds centers began this week.  
Mrs. Helen Bjorkman, summer recreation supervisor, said that competition is divided according to age categories, with boys and girls competing. "In order to provide a challenging basis of accomplishment for the youngsters, the All-City Championships will combine events involving flying disc competition, discus and accuracy," the supervisor reported.

The flying disc, an aerodynamically-designed plastic plate, is capable of achieving spectacular flight patterns, depending upon the skill and dexterity of the individual, Mrs. Bjorkman explained. More than 200 parks and recreation departments across the country are currently carrying out similar tournaments. The program has the official sanction of an international association.

The degree was conferred by members of Quincy Commandery 71 Knights Templar, with Burd C. Moeller, past eminent grand commander, as grand commander for the degree.

The ceremony of conferring the degree concluded the Southern Illinois DeMolay Association meeting which included a church service and business meeting.

## Inter-City All-Star Tilt Sunday at Troy

The all-star game of the Southwestern Illinois Inter-City Baseball League will take place at Hartman's diamond in Troy at 2:30 p.m. Sunday.

The game will pit Red Division all-stars from three teams, Collinsville (6-2), Pocahontas (4-4) and Marville (3-5), against the all-stars of the Blue Division, composed of leading players from Mercer's of Granite City (5-4), East Alton (4-3) and Granite City Steel Credit Union (2-0).

The total win-loss statistics of each division shows a possible slender edge for the Red Division, with a 13-11 record to the Blues' 11-13.

But the Blue Division has the pitchers. League-leading Jim Blackledge of East Alton carries an earned run average of only 1.82 along with a mark of .385 at bat.

The league's second best arm belongs to Mercer's Don Rains (2.59 ERA).

Dart's brother, Jim Rains, is next with an ERA of 2.84 but was not chosen for the all-star list.

Steve Lengyel of Credit Union (ERA 3.31) was selected to work either on the mound or the outfield. Lengyel totes a .350 batting average.

At the plate, the men to watch include Harold Tankley, 400, of Mercer; Larry Dillard, 391, of Credit Union and Charles Hasenstam, 417, of Collinsville.

## This is no accident

But you're our witness, anyway—to a piece-of-fut demonstration of how quickly and easily Maverick can be taken apart and put together. We designed Maverick that way for a good reason. When you're paying by the hour for service or repairs, speed is important. And at times like this, nothing can beat a simple machine.

Most new cars are more and more complicated. And more expensive to care for. Maverick's so simple to service, you can do it yourself—if you really mean it about being independent.

You won't feel like an orphan either. Our Owner's Manual shows you how to handle all the routine service. You can tune and time your engine, change plugs and points, adjust the idle, the headlamps, the handbrakes, do nearly 40 different service operations.

And if you create a fender or crack a grille, you can almost smile. Maverick's front fenders bolt on and grilles are replaceable in minutes. And where time means money, fast means savings.

Stop in once every 36,000 miles for a lube job. Oil changes every 6,000 miles apart. (The leading import auto gets oil changes twice as often and lube jobs every 8,000 miles.)

While still being simple, Maverick is big enough to take the whole family 1000 miles. It's small enough to park easily, and go light on gas. A 105-hp Six gives you real passing power. (You get 62 more horsepower than the leading import offers.) And the wide stance gives you a smoother ride, better handling and roadability.

It's no accident that Maverick is the hottest selling new car to come along in five years. We designed it that way. See it at your Ford Dealer's.

The 21st annual park district holiday fastpitch softball tournament to be played on Wilson Park's diamond No. 8 will begin tonight.

The five entered teams will play in double-elimination style to determine the title trophy winner.

## Rep. Kennedy Hopes To Move to Senate in '70

"The 53rd senatorial district seat belongs to the Democrats and I feel I would be a strong candidate," State Rep. Leland J. Kennedy (D, Alton), told the Press-Record yesterday in announcing his candidacy for the spring 1970 primary.

The post formerly was held by Lieut. Gov. Paul Simon, a Democrat. Sen. Merrill Otwell (R, Edwardsville) was elected this spring to complete the four-year term.

Kennedy notes that the senatorial boundaries and the 58th representative district include six identical townships (Granite City, Venice, Namooki, Chautau, Alton and Wood River). He would give up Collinsville but add Edwardsville, Jarvis, Pin Oak and Godfrey townships in moving to the Illinois Senate.

In the House 16 years, 1946-64 and 1967-70, Kennedy at various times served all the affected townships due to boundary changes. His absence from the House was during the period Simon and Lloyd C. Harris of Granite City were winning the two Democratic seats from this area. Kennedy currently serves along with Rep. Horace Calvo of Granite City.

Kennedy serves on the Industry-Labor, Public Welfare and Bank-Saving & Loan committees, plus commissions on air pollution and county problems. A world war II veteran, he is 60 years old and is a retired Shell Oil Co. operating engineer.

Cost will be \$28,640, or 44 cents for each of 651,000 gallons. The gas is used to provide heat, cooking and hot water at 651 apartments—451 at Kirkpatrick Homes and 200 at The Anchorage.

Continental Oil, Houston, bid 4.95 and \$2,224; Lightning Gas, Salem, Ill., 5.49 and \$38,739; Alton Bottle Gas, Alton, 5.64 and \$38,716; and A-1 Gas, Arnold, Mo., 6.1 and \$39,711.

A GCHA parking lot is in use and is complete except for tire barriers, it was noted.

Streets are remaining open during storm sewer installation at Kirkpatrick, and a close watch is being kept on such child safety hazards as rain-filled excavations. Executive Director David Morgan reported.

In cooperation with the Coordinated Youth Services, 311-SW graduate students are counseling Kirkpatrick children, the board was told.

A Kirkpatrick Boy Scout is among those who will attend the national jamboree in Idaho this summer.

Fox stated in his address that businesses in the two state area have committed a total of 4788 permanent jobs for the hard-core unemployed to date in the 1960 NAB job pledge campaign.

He said another 2462 pledges of temporary summer jobs for inner-city high school youths are at present.

## Club Sees Asia Films, Honors Mayor Maeras

Photographic slides of five Asian nations visited in May by the International Conference of Weekly Newspaper Editors were shown to Madison Rotarians yesterday by William F. Winter, Press-Record associate editor.

President Richard Sues, in beginning the new year, read the "review and review" program of Rotary International President James Conway. The resignation of Vice-President and Treasurer Keith Toby, who has been transferred to Wood River, was announced. The club honored Mayor Stephen Maeras on his birthday.

Also have been obtained and the number of businesses participating in the program has increased from 297 in 1968 to 505 inner-city high school youths are at present.

## Youth Pleads Innocent

Ronald Davis, 17, of Rural Route Two, was arrested at 1:15 a.m. Tuesday at East 25th street and Nameoki road on a charge of having illegal possession of alcohol. He pleaded innocent before Magistrate Thomas Welch, who set a hearing for next Thursday. He was taken to the Madison county jail at Edwardsville in lieu of payment of \$50 cash bail.

## It makes any sedan as big as our Squareback sedan.

Without it, none comes close. The Volkswagen Squareback Sedan has 31.2 cu. ft. of carrying space, (48.9 with its rear seat down.) The next biggest sedan has only 22.1 cu. ft. (And a good part of that is taken up by the spare.)

Of course, we admit the difference doesn't matter if you're carrying only a suitcase or two.

But let's say you're out and you find d

good deal on an antique chest that's about 5' long. Or a stereo console that's cash and carry.

## Taxes Must be Paid for Household Employees

Housewives who pay someone \$50 or more for household services during any three-month calendar quarter must report these payments and pay the Social Security taxes due to the Internal Revenue Service, according to Jay C. Philpott, central and southern Illinois district director of IRS. He said the report for the April, May and June quarter is due July 31.

The Social Security tax on household wages is 4.8% for the employer and 4.8% for the employee. When the quarterly report is filed, a check or money order representing 9.6% of the cash wages reported for the period should be included with the return.

Form 942, Employer's Quarterly Tax Return for Household Employees, is used to report the taxes due, Philpott said. After the first one is filed, a copy of the form is mailed every employer in time for the next quarterly report.

Philpott said anyone who hires a maid, cleaning woman, cook, governess, housekeeper, caretaker, gardener or chauffeur will be liable for Social Security taxes if cash wages of \$50 a quarter are paid to one employee. Money given to employees for carfare is to be counted as total wages paid but the value of meals is not included.

### Delinquency Cuts Tax

Failure to pay the taxes can delay payment and decrease the amount of a maid's benefit when she becomes 65, Philpott noted. Often when maids or other household employees apply for benefits it is revealed that all taxes have not been paid, he said.

IRS then has to secure delinquent returns from the employers, sometimes covering several years with a substantial amount of taxes and penalties due, Philpott said.

No taxes are due on amounts paid to persons who are independent contractors and not household employees, the di-

## 11 Landfills Operating in Madison County

(SECOND OF A SERIES)

Other than the refuse which is disposed of by private parties or by industries and other establishments having their own disposal facilities, all refuse produced in Madison county is disposed of in some form of landfill.

Four communities have their own landfill sites. The refuse production of all the other communities within the county is disposed of in private landfills, Horner & Shiffrin, consulting engineers, report.

Three of these private operations are outside the county. Hundreds of tons per day of refuse from the City of St. Louis and from St. Louis county in Missouri also are deposited in this county.

As of November 1968 there were 11 landfills operating in Madison county, including one which may be classified as a sanitary landfill. One of the smallest of these may be discontinued in the near future, but establishment of another one is imminent.

**State, County Supervision**  
The actual number of land-

fills in operation at one time may vary, since they are subject to state and county inspection and must operate in accordance with prescribed procedures. They may be forced to close operation, at least temporarily, if corrective operating techniques are found to be necessary.

Certain of the smaller landfill operations are maintained by individual haulers for their own use and are sometimes operated on an intermittent basis. As a general rule, landfills in this county are regarded as not in good repute with the residents.

There are frequent published references to objections and complaints filed by individuals against existing or proposed landfills, despite approval by state and county authorities of their establishment and operation.

**Harder to Start New Sites**  
Applications are made periodically for additional landfill sites. Such applications generally result in adverse public actions, and it appears to be increasingly difficult to establish new sites.

Of the four city-owned landfills, only one is of long-range significance. They are not under county jurisdiction but are subject to state inspection and control.

All private landfills in unincorporated areas are under county jurisdiction. The city of Alton has acquired the site of a former landfill just north of the city. At the present daily rate of 50 to 60 tons of refuse, the site will have a long life of indefinite duration.

**Not Visible to Public**  
It was placed in operation in the spring of 1968 and initial objections apparently have been largely overcome. The operations are not visible to passersby and are conducted in a manner which appears to hold valid complaints to a minimum.

Collinsville presently contracts with a private hauler who disposes of mixed municipal refuse in St. Clair county. However, the city maintains a landfill east of the city for the convenience of citizens.

Marine operates a small landfill north of the city for use by its citizens only.

Highland maintains a landfill east of the city for its own use. Because of difficulties in complying with the state regulations, its use may be discontinued. The city is negotiating a refuse collection and disposal contract with a private hauler.

**Chouteau Island Site**  
The Mal landfill on Chouteau Island began operation in 1967. It presently receives 400 to 600 tons of refuse per day, almost two-thirds of which is commercial refuse from the city of St. Louis and domestic and commercial refuse from St. Louis county.

This operation has been subjected to constant criticism by neighboring property owners since its inception, the Horner & Shiffrin firm reports. It was originally on a site of about 45 acres, and approval is sought for an extension of the site. Without such an extension, the large volume of refuse handled would limit its life to about three or four years.

The Taylor landfill, a private operation, is north of Troy and receives refuse from Troy, St. Jacob and the Twin Lakes area. Its estimated life is seven to eight years.

**Remaining Landfills**  
The Crowe landfill, private, north of Edwardsville, is operated exclusively for that city. Estimated life is five years. Sanders landfill, near Alton, is operated only for the convenience of a private hauler who estimates it receives 100 cubic yards weekly. Probable life is eight to nine years.

McLaughlin landfill, private, has a short anticipated life. It receives domestic refuse from East Alton.

Hartford's municipal landfill may be found to be substandard, state authorities have indicated.

The Ladd landfill, classed by

## Madison County Fed S&L Boosts Interest

Froemming also announced the availability of six-month savings certificates with certificates for \$10,000 or more paying 5 1/2% per year. Certificates of \$500 to \$900 pay 5% per year. Holders of current 12-month certificates will automatically be switched to the six-month plan at the next renewal date.

## Dear Jackie:

We're thinking of having our floors covered, but we don't know with what yet. Could you tell me, what are the advantages of carpeting compared to other types of floor coverings?

Shopping Around,  
Madison, Ill.

Dear Shop:

Well, there are almost too many to list here but I'll try. For one thing carpeting is easy to care for, you just vacuum it rather than wax and scrub it. It reduces noise in the home because it absorbs sound (hardwood floors and tile bounce sound around like a sounding board). Carpeting acts as a safety feature, too! If children or older folks should happen to fall, it's like falling on a cushion. In the winter your carpet serves as insulation, reducing fuel bills and chances of colds. Then of course there is repair work such as burns! Carpet can be repaired almost invisibly. And luxury. Carpet looks so much better, for just a couple of dollars more.

Dear Jackie:

My children were running in and out of the house playing the other day. Both of them got into some water and had muddy shoes. Well, you can guess what happened! They tracked right across my new carpet. How in the world can I clean it up?

Francie,  
Granite City, Ill.

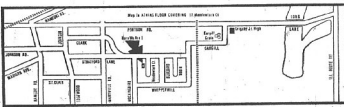

Dear Fran:

Don't panic, when it's dry (and it certainly should be by now) just vacuum over it and it's gone!

Just another advantage of having carpet!

From a table centered with a large stork, Mrs. Rousseau was presented with many gifts. The guests were then served a mid-afternoon luncheon. The refreshment table was centered with a white wicker cradle which held a doll on a lace-edged pillow. The cradle was nestled in a cloud of nylon tulle and encircled with white baby's breath.

## More About New State

The act permits a \$1000 exemption for each person. For example, a family of four with a gross income of \$10,000 would pay a tax of \$100. With the exemptions of \$1000 each, the tax of 2.5% would be paid on the "adjusted gross income" of \$6000.

Computation of the Same  
Corporate base income would be computed essentially the same except that the corporation will start with the federal taxable income instead of federal adjusted gross income.

This is because corporations are not allowed the personal deductions allowed individuals. Tax officials of Illinois and Mississippi explained that workers who live in one of the states and work in the other will not have to pay tax in both states, except in instances where a taxable income differs because of the difference in exemptions.

Illinois residents working in Missouri will receive credit for their Illinois tax for tax paid in Missouri. Missouri residents working in Illinois, in turn, will receive credit on their Missouri tax in the amount of a reduction in the amount of income tax subject to the Missouri tax, which the Illinois tax is levied.

## Recollections of Thailand Visit Include Canal Tour of Floating Market; Staunch Ally of U. S. Facing Vietnam-Like, Red-Inspired Warfare

By WILLIAM F. WINTER

"What was the most interesting part of the trip?" a traveler to the Far East is frequently asked upon returning home. Possibly the most unusual activity during a month-long Asian tour by the International Conference of Weekly Newspaper Editors was a morning spent boating on the River Chao Phraya and its klongs, or canals, at Bangkok, Thailand.

Especially to one who lacked time to see the Hong Kong waterfront several days later during the group's stop at the British colony, the four-hour "floating market" tour in Thailand was memorable. It included a glimpse of the royal palace, where Apsara and the King of Siam" fame once resided. As housewives haggled over their daily marketing, they were sold to tourists laden with fruit and other wares, youngsters on their

school vacation swing about and momentarily grasped the side of our motor-driven vessel in order to catch a free ride.

Sarong baths—bathing without public disrobing—were in progress, and for toddlers, no sarongs were found to be necessary.

Mothers washed their dishes, and old men came to the water's edge to start their day with a newly-washed face.

Wizened old women and their pre-teen proteges paddled long, narrow boats on buying and haggling excursions.

Small temple bells and other souvenirs were sold to tourists by young boys swimming out to them from covered docks where golden long-boats were kept, awaiting the annual Royal Barge Procession in October. In this ceremony, the King, accompanied by long-boats manned with chanting oarsmen, rides down the river to present new robes to priests.

From the wide river, the waterway continued to diminish in size as tourists wended their way into and along the canals. Each bend brought a new vista of greenery along the bank—and new picture-taking opportunities so absorbing that the rule of "only one person in the boat standing at a time" was frequently violated.

At a point where some sightseers alighted to shop at a non-waterborne market, their angle-parked boats leaving only a thin line of water open, a traffic jam developed, prompting the young assistant on our boat to hurry to the bow and push away the vessels which were on a collision course with us. His other chore: diving beneath the vessels to free the propeller of accumulated debris.

When two-way traffic became impossible, a canal traffic policeman—would you believe?—made an appearance, hopping from the top of one boat to another and giving "stop" and "go" signals until congestion had eased.

The "floating market" is only one of more than a dozen available tours. One provides an up-

land visit to the bridge over the River Kwai. A highlight of the ICWNE visit was a walk through Wat Aron, the Temple of Dawn.

Other tours include the Grand Palace, 1800-year-old Buddhist temples, the National Museum, Sun Pakkard Palace, an elaborate Thai dinner, Thai classical dancing and a ringside seat at Thai boxing—a rough-and-tumble sport in which the elbows, knees and feet are used along with the fists.

Saffron-robed Buddhist monks are a familiar sight in Thailand, as are craftsmen with such products as silver, bronzeware, lacquered items and silks. Thai silk is much sought after due to its bright colors and sheen.

The pictures below show Thailand boxing, two views of the "floating market" near Bangkok, the giant guardian at the Temple of Dawn there and a typical scene during a boat ride along one of the narrow canals of Thailand.

## Patriotism Justified By the Facts

(Christian Anti-Communism Crusade)

"I am amazed these days with American Negroes for wanting to return to their African culture. They should pay a visit to the backwoods here: 'liberals' for wanting to destroy a society which, when viewed from this continent, seems almost beautiful in its democracy and personal freedom."

"Since being here, I have gained an admiration for the U. S. and its efforts with the Negroes and others which goes beyond anything I have seen. It is tragic if such a nation destroyed itself because of its belief in almost total personal freedom."

This statement is contained in a letter from a young medical doctor serving in a hospital in the Transkei, Bantu Republic of South Africa. He is one of two doctors supplying all medical services in a 250-bed hospital. Half the patients are victims of tuberculosis.

In record of the United States in promoting human well-being is remarkable. Nevertheless, the tendency in educational institutions is to represent the U. S. as a predatory, imperialist threat promoting violence all around the world. American history is presented as a series of heartless massacres of the Indians and of wars of aggression. It would be tragic if the system is presented as essentially greedy and inhuman while American foreign policy is pilloried as aggressive and obsessed with a paranoid fear of Communism. This view of the U. S. is responsible for much of the alienation and riotous conduct prevalent on the campus today.

The best antidote to lies and half-truths is the whole truth. Consider the question of poverty in America. It is true that 10% of American people live in poverty. This is undesirable and must be corrected. It is also true that in the year 1900, 90% of American people lived in poverty. This means that 80% of the American people have been lifted from poverty during this century.

Consider the question of racism. It is true that racism exists within the U. S. as it does in every other country in the world. It is also true that tremendous efforts are being made by millions of people to eliminate racism by legislative, economic, social and personal action in a manner unprecedented in the history of the world. It would be tragic if the system which is working to complete the unfinished tasks should be destroyed by either the malice of its enemies or the impatience of its friends.

One challenging task is to teach the whole truth about the American people and system to the youth of the world and to reignite the fires of patriotism and restore respect for the institutions of society.

**LAKE PARK CAN ATTRACT INDUSTRY, AID DRAINAGE**  
To the Editor:

Horseshoe Lake could mean much to the Tri-Cities and surrounding area. It affords a catch-basin for a lot of storm water that has been flowing in our city for some time.

When one takes a look at a lot of the valuable land that lies between the Bluffs and Horseshoe Lake that could be used for both heavy and light industry, it is not hard for one to see that our community and surrounding area could be strengthened economically in way that would help both business and labor, if this land could be developed for industrial and economic growth.

I have high praise for the job that has been done by Henry Karandjoff on behalf of Horseshoe Lake and for bringing about the passage of the bill in Springfield which would make Horseshoe Lake a much needed recreation area for graminas and children.

Now let's take a look at some of the things that could be of help to our community and also the surrounding area. I would like to point out four good reasons for the lake park:

(1) It could serve as a water shed in the bluff areas.  
(2) It would serve as a much needed recreation area, including camping, boating and fishing.

(3) There is a great possibility for an airfield in the immediate Horseshoe Lake area.  
(4) Railroad services are already available to the Horseshoe Lake area to serve industry whenever needed.

FLOYD MILLER

CRITICAL OF POTENTIAL LAKE ACQUISITION COST  
To the Editor:

I received one letter of objection to my letter on Horseshoe Lake. I believe the person misunderstood me.

I am not against parks or recreation of any type. I am 52 years old and have lived in the Tri-City area 44 years. I have two grandchildren and I love to fish, but I am against excessive lake prices.

I believe it is eight or 10 times too high. Two million dollars appropriated for this land is too much.

The excess amount that would be paid on this park would probably be enough to buy another one close by.

Just because one likes to fish or camp out doesn't keep it from being foolish for taxpayers to pay more for something than it is worth. I still think it is a swamp.

nam," Thailand will be the target. The U. Red China is stirring up the Thai tribesmen; they have been equipped with Russian rifles and urged to rebel against their government.

America's firmest ally in Asia, Thailand, is somewhat vulnerable because it cannot yet say that it is fully a democracy. The Senate is appointed, 15 parties limit the effectiveness of the elected House of Representatives and military leaders head the official government party with King Bhumipol Adulyadej accorded only limited power.

### Two GC Youths Nabbed With Stolen Autos

Two Granite City youths were arrested on stolen auto charges Monday at Route 3 and Chain of Rocks road by state troopers and Madison county sheriff's deputies.

John M. Kisterson, 18, of 1549 St. Clair avenue, who earlier had been taken into custody by deputies for being away without leave from Fort Knox, Ky., admitted taking a 1963 station wagon owned by Paul Schuler, 327 Newell drive, Sunday night from 2400 Edwards street.

The other, a juvenile, admitted stealing a 1963 auto owned by Frank Harris, 27 Briarcliff, Sunday night.

The sheriff's office said Kisterson was handcuffed when he escaped from deputies in the AWOL case. He was held in custody at the county jail.

Deputies said the juvenile, who has a long police record, was humorous about the theft and blamed his arrest on the faulty condition of the auto. He was released from jail.

### Water Workers Win 40¢ Raise

An across-the-board wage increase of 40 cents per hour has been granted employees of the purification and pumping division of the East St. Louis Interurban Water Co., averting a strike that had been called for midnight Monday.

The last minute settlement came half an hour before the strike was settled when the company agreed to the 40-cent wage request, according to William Shock, president of the 45-member Local 405 of the Utility Workers Union of America.

The wage increase will raise the average wage to \$4.25 per hour. The company had offered 30 cents an hour with some non-economic benefits, but the employees demanded a 40-cent raise with no other benefits.

Shock said the wage increase was based on the company's recent announcement of plans to petition the Illinois Commerce Commission for a 47% increase in water rates.

The workers for whom the wage boost was approved are employed in plants in Granite City, Cheateau Island and East St. Louis.

## Solo Flight by Robert Tindall At Minimum Age

Becoming a pilot at the minimum possible age of 16, Robert Tindall, son of Mr. and Mrs. P. E. Tindall, 2907 (r) Madison avenue, said he was "thrilled" by his successful solo flight June 27 at Lakeside Airport. "It finally happened," he remarked.

Gradually accumulating experience at the throttle since the age of 10, the prospective Granite City high school senior hopes to become a professional pilot, following in the footsteps of his uncle, Charles O. Midyett, 3224 Mockingbird lane, who was his instructor.

Midyett, brother of Mrs. Tindall, is a captain on Ozark Airlines turbo-prop flights, having reached that rank at the minimum age of 23. He is now 25, having soloed in 1960 when he was 16.

The family's flying history dates back 40 years, covering the career of Midyett's father, Omar, former owner of Lakeside.

Robert Tindall's mother, Jean, performed her first solo flight in 1957. Her husband has a license as a commercial pilot.

"Chuck" Midyett taught his younger sister, Mrs. Lana Tarris, to fly in 1963, when she was 16.

The latest pilot in the family someday hopes to be an airline pilot, perhaps preceded by expansion of his present experience in the Air Force.

## Appellate Court Upholds GCCouncil Appointments

The Appellate Court, in an opinion handed down Tuesday in Mr. Vernon, upheld the Madison county circuit court ruling in dismissing a complaint for declaratory judgment filed against the Granite City council last year by Mayor Partney over council committee appointments.

Judge Joseph H. Goldenhersh was the presiding justice, and the opinion was prepared by Judge Frederick S. Green, with Goldenhersh and Justice Edward C. Eberspacher concurring.

The court noted that while the controversy over authority to appoint committees ended with the start of a new fiscal year, that an opinion was needed in the event the issue should arise again here or elsewhere.

It was pointed out that city ordinance 2181 gave authority to the mayor of Granite City to appoint council committees, which Partney did on May 20, 1968, for the 1968-69 fiscal year. The council made its own ap-

pointments and then enacted ordinance 2550, repealing ordinance 2181, to provide for the council to appoint its own committees, which the council did on June 24, 1968, by approving its previous appointments.

The Appellate court opinion states: "Regardless of what the council might have been and regardless of the attempt of the mayor to appoint committees for a term under ordinance 2181, those whom he appointed served at his pleasure. When that ordinance was repealed, those whom he had appointed served at the pleasure of the new appointing authority, which by ordinance 2550 became the council itself."

"When the appointments by the council were finally perfected on June 24, 1968, this action had the effect of terminating the appointments of the mayor."

"The mayor contends that the provisions of the state statute providing for the abolition of certain city officers 'by ordinance or resolution, to take effect at the end of the current fiscal year' is controlling. The foregoing, however, has reference to city officers who would otherwise be elected by the electorate. It is not applicable to the internal organization of the council."

## Arsonists Try

## To Burn Home of Venice Officer

An arson attempt on the home of George Rhodes, Venice, patrolman whose removal from the police force was one of the demands of a group of North Venice youths last week, failed yesterday morning when the fire was discovered before it had made any headway.

Rhodes, who lives at 530 Slough road, went to his home from police headquarters shortly after 5:30 a.m. and found smoke coming from the southeast corner of the building. He called Venice firemen who extinguished a smoldering fire in a mattress.

Police said they found a milk bottle containing a burned-out wick that obviously had been used as a firebomb. Police also reported that a block about six inches square had been thrown through a window on the southeast corner of the building, breaking out the glass so that it wouldn't interfere with the firebomb.

Damage was confined to the mattress, firemen reported. Criticism of Rhodes, who is a Negro, and a demand that he not be permitted to patrol the North Venice area was voiced by a delegation of North Venice youths who met with Venice city officials about ten days ago, just before a series of firebombs and other disorders hit the city. Thirty-three persons were arrested as a result of the disturbances.

In loving memory of RICH-  
ARD DAY, July 6, 1988:  
A Love Note To Dad  
Oh Lord grant that I can be  
A parent as fine as Dad was to  
me.  
With a loving heart and a  
correcting hand  
That taught me how to love and  
respect my fellow man  
The fear of God made you walk  
straight and tall  
This is why we love you most of  
all  
Not always right, not always  
wrong  
Oh, the spirit of God, keeps you  
tarrying on  
No silver or gold filled your  
pockets, dear  
But twenty little hands were  
always near  
You gave more than silver or  
gold  
And sweet memories dear, that  
are untold.  
Only one prayer I can whisper  
today  
That my children one day  
might pray  
Oh Lord, grant that I can be  
A parent as fine as mine was to  
me.  
Sadly missed by

## Kiwanis Hear Talk On Bonds, Bonding

Details on bonds and bonding were presented to Granite City Kiwanis Club members during a dinner meeting Monday at the Rose Bowl.

The guest speaker was David Reinhardt, supervisor of the Surety and Fidelity Board, St. Paul Fire and Marine Insurance Co. He was introduced by Darrell Weible.

Reinhardt said there are two types of Bonds—surety and fidelity—and that surety bonds guarantee an extension of credit while fidelity bonds are "honesty insurance."

Ed Moore, president, reviewed the forthcoming bond issues to be held July 27 on the Mississippi River near the Hartford canal harbor of the local Bow Line Boat Club. William Sebold is chairman.

Also discussed were a night at the Municipal Opera for members and wives on Aug. 12 to see "South Pacific" and a steak-dry, tentatively set for August.

Present Monday were 18 members and a guest, Arnold Cassens of Edwardsville.

## Education, 'Con Con' Topics of Chamber Board

Board members of the Chamber of Commerce of the Tri-Cities were addressed Tuesday night at the Rose Bowl by Jon Mullen, head of the Teachers Local 743 salary and policy committee, and Granite City Park Supt. Harold Brown.

Mullen reviewed the position taken by teachers in negotiations with the Granite City Community unit school district, and a question period followed his presentation.

The Chamber asked its Education Committee, led by Warren Decatur, to hold meetings on the salary disagreement and to assist the two parties in whatever way it can in reaching a settlement.

Supt. Brown presented a photographic slide program the park district has prepared to depict the advantages of residing in this community. He was praised for carrying out the project.

Chamber President Clifton E. Blankenship presided at the July dinner meeting for directors, and outlined the agenda for the Illinois constitutional convention which will begin this year.

Members enrolled during the annual membership drive in June were approved by the board.

Bylaws of the Women's Division were accepted and Dr. Felicia Koe, division president, discussed recent activities.

An appropriate name currently is being sought for an industrial development corporation to be created under district sponsorship. Chester L. Baker took the board. Formal action is to be taken after selection of the name.

The board accepted the resignation of Keith Tobey as chairman of the Development Committee. He is being transferred by Illinois Power Co. to its Wood River district.

Blankenship appointed a nominating committee to propose new directors for the 1969-70 term to be filled this summer and fall. The terms of 26 board members continue beyond 1969.

Chamber Manager Howard Colquhoun reported on his participation in a Chamber of Commerce of the U.S. annual institute held at Michigan State University. Principal topics there were law and order in U.S. communities and laymen's stands on complex scientific issues.

An invitation is extended to the public by the pastor, Rev. M. A. Groff, to attend the special program at 6:30 p.m.

Three autos were damaged at 7:20 a.m. Wednesday after one driven by Stanley Lucas Jr., 738 Ashland avenue, had stalled at the intersection of 2900 Madison avenue. It was pushed clear by a car driven by Hubert A. Joyce, but an auto driven by Velma B. Petrillo, 3066 Franklin street, struck the rear of the Joyce auto and forced it into the rear of the Lucas car, according to the police report.

## Maryville Home for Children to Close Aug. 15

Because it is financially unable to make additions and improvements necessary to meet new state requirements, the Assemblies of God Children's Home in Maryville will be closed Aug. 15, according to Supt. Rev. David Floyd.

Floyd said that the new requirements would demand several new buildings for the institution and triple present operations. The home is now licensed by the Illinois Department of Children and Family Services.

Property and equipment of the home, the only Assemblies of God home in Illinois, will be sold. It includes 19.5 acres of land, Floyd said. The home was chartered in 1947 and can house 30 children and house parents.

After the home closes, Rev. and Mrs. Floyd plan to seek a new site for the home, similar post, and House Parents Mr. and Mrs. Gary Child plan to return to Granite City.

## State Air Board Oks Standards; Two Hearings Set

Stringent air control standards designed to meet qualifications of federal airshred regions in the St. Louis interstate and Chicago regions were adopted by the Illinois Air Pollution Control Board Monday in a meeting at Southern Illinois University—Southern campus.

The approved standards concern sulphur dioxide and suspended particulates and are as stringent as those proposed earlier for Missouri and Chicago. Both airshred regions were organized by the federal government when local agencies could not agree on control standards. Illinois board members scheduled two public hearings in August, either of which could result in some revision of the adopted standards.

The Missouri hearing will be held in St. Louis on Aug. 12 and the Chicago hearing was scheduled for Aug. 5.

**Set Compliance Dates**  
In addition to establishing the standards, the board set deadlines for compliance. The interim compliance date is Jan. 1, 1972 and the final enforcement date is Jan. 1, 1974.

In establishing goals for suspended particulates which are measured in terms of micrograms in a cubic meter of air, the board set a requirement of 100 micrograms per cubic meter of air as the interim goal, while the permanent goal for 1974 is 75 micrograms.

Sulphur dioxide, measured in terms of parts in a million parts of air, has an interim goal of .05, and a permanent goal of .015. The permanent goal suggested earlier for Missouri is .02.

The Illinois board also announced plans to hold hearings in Chicago and St. Louis on rules for exempting political subdivisions from the Illinois Air Pollution Control Act.

**May Ask Exemption**  
Political subdivisions may apply for exemption but will be required to show that they can control air pollution without direction of the board. These meetings will be called after the public hearings on the new standards are held.

C. W. Klassen, the board's technical secretary, said the new standards must be submitted to the federal government for review before the public hearings are held. He said he believes the standards are close to those being adopted by Missouri and Indiana and that he does not expect many problems with adoption of the standards by the other states.

## Arrested after Mishap

Cron, 21 of 1537 Second street, Madison, owner of the auto Fletcher was driving, was ticketed at 11:55 p.m. and Fletcher was charged with leaving the scene of an accident.

## Collide in Madison

Cars driven by Gary E. McDowell, 3849 B. street, and Phillip Finazzo, Anaheim, Calif., were damaged at 10:50 p.m. Tuesday in a collision at Third street and Madison avenue in Madison. Police said McDowell was headed south on Madison avenue and making a left turn and Finazzo was driving north.

## Can we wave the Flag too much?

Is it possible to wave the flag too much? Provided, of course, that you wave it with integrity? Is it possible to study Lincoln or Shakespeare too much? Is it possible to read the Bible too much? The great, the good, the true, are inexhaustible for inspiration, example and strength. I believe that we are not waving our flag enough, not nearly enough. It seems to me that we are developing a tendency to be timid or even apologetic about waving the stars and stripes. Walk up and down the streets on July 4th and count the flags. It is our nation's birthday, a sacred day in world history, the most important day of America. Why isn't the flag flying on every rooftop and from every home and building? This complacent attitude is strong evidence of cancerous patriotic decay. The flag is a symbol of our national unity. It is the spirit of our undying devotion to our country. It stands for the best that is in us...for loyalty, character, and faith in democracy. Isn't our flag a synonym of the United States of America? Does it not represent man's greatest, noblest, most sublime dream? Is it not the zenith of achievement, the goal to which generations have aspired? Ladies and gentlemen, I believe it is time for us...for the mad, rushing Twentieth Century American...to stop for a moment and think. Let us arrest our near reverential admiration of material success and return to the spiritual and ethical values. Let us imbue and rekindle in ourselves and our children the so-called old-fashioned way of patriotism, a burning devotion to the principles and ideals upon which our country was founded. Should not every home own and proudly display the colors on holidays and other such occasions? Isn't the flag Patrick Henry, Jefferson, Franklin, Washington, Nathan Hale, Gettysburg and Valley Forge, Paul Revere, Jackson and other great men and women who have given us our heritage? When you look at the flag can't you see the Alamo, Cortegidor, Pearl Harbor, The Monitor, The Merrimac, Wake Island, and Korea? Let us forget, isn't the flag Flanders Field, Bataan, Iwo Jima, Normandy, Babe Ruth and Davy Crockett? The great events of our past and present are wrapped up in our flag. It is a symbol of this blessed nation, a giant in industry, education and commerce. Millions of fertile square miles, wheatlands, coal mines, steel plants. Our greatest republic, the chosen infant destined to be man's last and remaining hope for suffering humanity, a shining beacon of light, noble and glorious, the haven for the oppressed and persecuted and truly God's gift to mankind.

That is what the flag means to me. Can we wave it too much? I don't think so.

## Pipeline Firm Seeks Boost in Natural Gas Rate

A rate increase of \$8,100,000 a year for natural gas supplied other utilities in the Illinois-Missouri metropolitan area is sought by Mississippi River Transmission Corp. in a petition filed Tuesday with the Federal Power Commission in Washington.

The proposed increase amounts to 16.9% of the pipeline's sales to utilities last year, and is being sought only for gas sold to utilities. Such sales last year amounted to \$48 million.

Of the total increase, about \$7.6 million would be added to gas costs for the St. Louis metropolitan area with an estimated \$27,000 added cost to Illinois Power Co. on the Illinois side of the river, Union Electric Co. which sells gas in the Alton area would pay about \$37,000 more and the bulk of the added cost, about \$6.1 million would be paid by Laclede Gas Co. which serves St. Louis, St. Louis county and St. Charles county in Missouri.

Carl Mathias, manager of the Granite City district of the Illinois Power Co., said the company at this time is not considering any steps toward filing for a rate increase to absorb added costs for this area.

## Probation-Juvenile Offices Move Postponed

The move of the Madison county probation-juvenile department into the new county juvenile detention home was postponed this week. It was feared that furnishings had not been completely installed by Tuesday and that the air-conditioning unit had not been connected.

The move from the old Knights of Columbus home, 405 Center street, Edwardsville, to the new building on the county sanatorium grounds had been scheduled for Tuesday. It is now scheduled for next week.

ultimately will be," Mathias said.

Under Transmission's plan, sales to industrial customers would not involve a rate increase. Direct industrial sales last year, many of which serve large industries in the Quad-City area, amounted to \$28,407,000.

Raymond V. Terry, president of the pipeline corporation, said the increase being sought would be the first since 1964. Since then rates have been cut three times in minor amounts, he noted.

Terry said the company does not anticipate any significant increase in net income resulting from the increases, if granted, because of substantially increased costs.

## Aug. 2 Vote Set On Annexation To Fire District

Circuit court order setting Saturday, Aug. 2 as the date of a special referendum on a proposal for annexation of a heavily populated area of Nameoki township to the Long Lake Fire Protection district was issued at Edwardsville Tuesday by Circuit Judge Harold R. Clark.

The order was based on a petition signed by residents of an area of about 800 homes that has been without fire protection since Granite City adopted a policy of making no fire calls outside the city limits in November 1967. A hearing on the petition was held in circuit court June 25.

Judge Clark's order set the voting period Aug. 2 from 6 a.m. to 6 p.m. and established one polling place at the Tri-City Glass Co. Building, 4500 Wabash avenue.

The order also appointed five judges of election to serve during the referendum balloting. They are: Francis Chast, 2104 Duval street; LaVerne Malynski, 2153 Robert street; June Humphrey, 2555 Orville street; Corinne Coggins, 1416 Wellington street; and Marie Durbin, 4725 Vincent street.

The area proposing annexation to the Long Lake Fire Protection district is bounded on south by the northern limits of Granite City, on the north by Morrison road, on the west by
